

Consultation Policy

7th June 2026

1 Definitions

The term “policy” is used to refer to any bylaw, code of conduct, recommendation, or similar published document held to be current by the **Society**. It explicitly excludes the **Constitution**.

The **Committee** includes any **Subcommittee** established by the executive **Committee** that is acting within their purview.

2 Consultation Process

1. Any **Club Member** or any three **Individual Members** or the **Committee** may propose a new policy or modification to policy.
2. Within 20 business days, the **Committee** must meet to determine whether the proposal conflicts with the **Constitution**, and whether the proposal is within the purview of the **Society**. If the proposal is in conflict with the **Constitution** or is outside the purview of the **Society**, the proposal is dropped and the reasons why communicated to the submitters.
3. Otherwise, the proposal must be communicated to all **Members** within 10 business days. All **Members** must have the ability to give feedback and suggestions for change.
4. After a period of not less than 20 business days, the **Committee** must meet to collate feedback and suggestions. If there is any opposition to the proposal, the **Committee** must address concerns and suggestions where reasonable by modifying the proposal, with the goal of consensus. The modified proposal must then be communicated to all **Members** and feedback sought as per step 3.
5. Once the **Committee** deems there to be no further improvement to the acceptance or viability of the proposal, the proposal is then brought to a **General Meeting**. The proposal becomes policy only if passed as a resolution as required by the obligations it places on members, as per the **Constitution**.
